

# Performances with a relaxed environment

We will be presenting each performance of Still No Idea in a relaxed environment, aiming to create a space for everyone, especially people who would benefit from a more informal experience. Some of the things that will be in place include:

- A relaxed attitude to noise in the auditorium; you are welcome to respond to the show in whatever way feels natural
- You can enter and exit the auditorium when needed
- We will help you find the best seats

We have produced a Sensory Synopsis and a Story Synopsis for anyone that may benefit from them.
